

Digital Transformation Roadmap

School Administration

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a phased digital-transformation roadmap — ERP for admin/fees/attendance, communication, teaching-learning technology, data/MIS, and change management — sequenced by impact and adoption, so the school modernises without disruption or wasted spend. Use it to plan digitisation. For ERP choice use the Parent App / School ERP Selection tool.

Purpose of this tool & output

Digitise the school, phase by phase

How the output is used

Use the roadmap to digitise the school phase by phase.

Important cautions

Digitise for real impact (admin efficiency and parent communication first) with attention to children-data privacy; phase it for adoption and avoid buying technology teachers will not use.
