This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains fee-regulation compliance — state Fee Regulation Acts/committees (FRC), rules on fee fixation and hikes, prohibited charges (capitation), the process/documentation to justify fees, and parent-body/PTA consultation where required — so your fees and hikes are lawful and defensible. Use it before setting or hiking fees. For the structure use the Fee Structure Design tool.

Purpose of this tool & output

Stay within state fee-regulation rules

How the output is used

Use the guide to stay within state fee-regulation rules and any fee-committee approval process.

Important cautions

Fee regulation is highly state-specific and actively litigated; follow your state process (often PTA consultation + justification) for any hike, keep audited documentation, and never charge capitation. Consult a specialist for your state.
