

# Green Campus & Sustainability Plan

School Administration

Document type: Plan / SOP / strategy / guide · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Builds a green-campus and sustainability plan — energy and water saving, waste management and composting, greenery, and student eco-education (eco-clubs) — that cuts costs and teaches values, differentiating the school. Use it to green the campus. For facilities use the Facilities Management SOP.

## Purpose of this tool & output

A sustainable, eco-friendly, cost-saving campus

## How the output is used

Use the plan for a sustainable, eco-friendly and cost-saving campus.

## Important cautions

Green initiatives cut utility costs and teach real values; start with low-cost wins (LED, segregation, harvesting) and involve students so it becomes education, not just infrastructure.

## Companion documents

- Facilities Management SOP
- Lab & Library Management
- Canteen & Food Safety Management
- Transport Operations Management
- Housekeeping & Sanitation SOP
- Procurement & Vendor Management
