

School Improvement Plan / SWOT

School Administration

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a school improvement plan — a SWOT across academics, safety, staff, infrastructure, admissions, finance and reputation, prioritised goals, and an action plan with owners and timelines — so improvement is deliberate and tracked. Use it for annual strategic review. For finance use the Financial Sustainability Plan tool.

Purpose of this tool & output

A clear plan to make the school better

How the output is used

Use the tool to make a clear SWOT-based plan to improve the school.

Important cautions

Fix safety and compliance gaps first, then build enrolment and academics; a school improvement plan works only if reviewed and acted on, not filed. Keep goals realistic to your resources.
