

School Legal & Compliance Risk Audit

School Administration

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Runs a legal and compliance risk audit across the school — affiliation, safety, child-protection/POCSO, RTE, fee regulation, labour, data privacy and committees — scoring each and flagging the highest-risk gaps with a fix plan, so you find and close exposures proactively. Use it for a periodic compliance review. For the calendar use the School Compliance Calendar tool.

Purpose of this tool & output

Find your compliance gaps before they bite

How the output is used

Use the audit to find your compliance gaps before they bite — affiliation, safety, labour and data.

Who should vet it

An education lawyer, to confirm the gaps and priorities.

Important cautions

Prioritise child-safety, POCSO and safety-certificate gaps above all — these carry the gravest legal and human consequences. This is a self-audit checklist; consult specialists to close serious gaps.
