

Parent App / School ERP Selection

School Administration

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Guides selecting a school ERP / parent app — must-have modules (admissions, fees, attendance, communication, academics/report cards, transport), data-privacy diligence, cost and adoption — so you digitise operations and parent communication without overbuying. Use it before choosing software. For digitization broadly use the Digital Transformation Roadmap tool.

Purpose of this tool & output

Pick the right ERP to run and communicate

How the output is used

Use the guide to pick the right ERP/parent app to run and communicate.

Important cautions

Vet the vendor on data security and DPDP (children data) before choosing; pick for adoption by teachers and parents, not just features. An unused app wastes money and trust.
