

School Transport Safety Plan

School Administration

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a school transport safety plan aligned to Indian school-bus norms — vehicle fitments and marking, driver/attendant rules and verification, GPS, boarding/deboarding and pickup verification, and emergency preparedness — so children travel safely. Use it for transport safety. For the transport service side see the Transport vertical.

Purpose of this tool & output

Safe buses and vans for every child

How the output is used

Use the plan to run safe buses and vans for every child — GPS, attendants and checks.

Important cautions

Follow Supreme Court and your state school-bus rules; child transport safety is non-negotiable — verify drivers, mandate attendants, and confirm contractor vehicles comply.

Companion documents

- Child Protection & POCSO Policy
