

Background Verification SOP

Security & Facility Management

Document type: Plan / SOP / strategy / guide · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produce a background/antecedent verification SOP for hiring security staff — the checks (identity, address, police, previous employment, references), documentation, and record-keeping — as required under PSARA and for client trust. Describe your context below.

Purpose of this tool & output

Screen every guard before deployment

How the output is used

Use it to screen every guard before deployment — a background verification SOP across identity, address and antecedents.

Important cautions

AI-generated SOP; antecedent verification is mandatory under PSARA - do not deploy unverified guards.
