This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get an event security plan — manpower deployment by zone, access and frisking, crowd and VIP handling, and incident response — to secure an event of a given size. Describe the event below.

Purpose of this tool & output

Secure a public or private event

How the output is used

Use it to secure a public or private event — an event security plan across access, crowd, and emergency response.

Important cautions

AI-generated plan; large events need police coordination and licensed manpower.
