Security / FM Feasibility Study

Security & Facility Management

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a feasibility study for a new security/FM contract or expansion — manpower and cost model, bill-rate vs cost, statutory load, margin and working-capital impact, and risks — to decide before committing. Describe the opportunity below.

Purpose of this tool & output

Test if a contract or expansion will pay

How the output is used

Use it to test if a contract or expansion will pay — the bill rate, statutory load, margin and wage-float economics before you commit.

Who should vet it

An experienced security/FM operator and a CA, to sanity-check the bill rate, statutory load and margin before you bid.

Important cautions

AI-generated study; validate wage rates and statutory load for your state.
