This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a perimeter security plan for a site — boundary barriers, intrusion detection, lighting, surveillance and patrol — to harden the outer line of defence. Describe the perimeter below.

Purpose of this tool & output

Secure the boundary line

How the output is used

Use it to secure the boundary line — a perimeter security plan across fencing, lighting, sensors and patrol.

Important cautions

AI-generated plan; validate with a perimeter survey.
