This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Draft a security services agreement between an agency and a client — scope and deployment, bill rate and statutory, liability and indemnity, and compliance — for a guarding contract. Fill in the terms below.

Purpose of this tool & output

Contract guarding services safely

How the output is used

Use the draft to contract guarding services safely — scope, manpower, bill rate, statutory responsibility and liability — reviewed by a lawyer.

Who receives it

The agreement is between the security agency and the client; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act where applicable; the bill rate, statutory-responsibility and liability terms are the key content.

Who should vet it

A lawyer, to check the statutory-responsibility, indemnity, liability and termination clauses before signing.

Important cautions

AI-generated draft; security contracts carry labour and liability nuances - have a lawyer review before signing.
