

Service Portfolio & Packages

Security & Facility Management

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Design a clear service portfolio and packages for a security/FM business — service lines, what each includes, ideal client, and bundling (e.g. integrated FM) — so prospects understand and buy. Describe your services below.

Purpose of this tool & output

Package security and FM services

How the output is used

Use it to package security and FM services — a service portfolio and packages that make it easy for clients to buy bundled services.

Important cautions

AI-generated portfolio; price from your actual cost model.
