

Threat Assessment

Security & Facility Management

Document type: Financial model / analysis · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a threat assessment for a site, person or organisation — the credible threats, threat actors and their capability/intent, and scenarios — to inform security planning. Describe the context below.

Purpose of this tool & output

Understand who and what threatens you

How the output is used

Use it to understand who and what threatens you — a threat assessment across actors, intent and capability.

Who should vet it

A security consultant, to validate the threat picture before you set measures.

Important cautions

AI-generated assessment; for serious/personal threats involve the police and professionals.
