

Video Analytics Plan

Security & Facility Management

Document type: Plan / SOP / strategy / guide · Generated 28 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a plan to apply video analytics to a CCTV system — use cases (intrusion, loitering, ANPR, people counting, PPE/safety), what is feasible, and how to deploy and reduce false alarms — to add intelligence to surveillance. Describe the need below.

Purpose of this tool & output

Make cameras proactive, not just record

How the output is used

Use it to make cameras proactive, not just record — a video analytics plan across detection, alerts and false-alarm control.

Important cautions

AI-generated plan; validate camera/analytics capability and privacy compliance.
