Bank Loan Project Report Builder

India SMB

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a bankable project report for a loan application — promoter and project description, market, cost of project, means of finance, a projected P&L/cash-flow narrative, repayment and DSCR/break-even in simple terms. Use this to apply for a loan; to first pick the loan use the Business Loan Application Guide.

Purpose of this tool & output

Generate a project report banks accept for your loan application

How the output is used

Use the builder to generate a project report banks accept for a loan — cost, means of finance, projections and viability.

Who should vet it

A CA, to validate the projections and financial statements before submission to the bank.

Important cautions

Have a CA validate financial projections before submission.
