This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds an expansion plan for a staffing agency — new city, sector or service line — with market entry, resourcing, compliance and funding. Use it to grow beyond the core. For diversification into new services use the Service Diversification tool.

Purpose of this tool & output

Expand to new cities or sectors

How the output is used

Use it to expand to new cities or sectors — a multi-city and vertical expansion plan with the capital and capability each step needs.

Important cautions

Expansion multiplies compliance (new-state PF, ESI, PT, CLRA) and working-capital needs, especially for contract staffing — do not let it starve the core or outrun funding. Validate real demand before committing. Confirm new-geography and sector compliance obligations with a professional.
