

Bandwidth / IP Transit Agreement

Telecom, ISP & Cable

Document type: Contract / agreement · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Draft a bandwidth / IP transit lease agreement between an upstream provider and a customer operator — committed capacity and burst, SLA and support, pricing and commitment period, and remedies. Fill in the deal terms below.

Purpose of this tool & output

Buy or sell wholesale bandwidth cleanly

How the output is used

Use the draft to buy or sell wholesale bandwidth/IP transit cleanly — capacity, SLA, commit and pricing; have a lawyer review.

Who receives it

The bandwidth/transit provider and the buyer — both sign; a copy for each party.

Fees & charges

Stamp duty per your state on the agreement; no separate government filing.

Who should vet it

A lawyer for the commit-level, SLA and penalty clauses.

Important cautions

AI-generated draft; have it legally reviewed.

Companion documents

- Broadband Subscriber Agreement
- Interconnect / Peering Agreement
- Right of Way / Wayleave Agreement
- Equipment Supply Agreement
- Network EPC / Turnkey Contract
- Telecom Mutual NDA

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
