

Telecom Licence Selector

Telecom, ISP & Cable

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get guidance on which DoT authorisation fits your telecom business — ISP/UL-VNO, Unified Licence, IP-I (infrastructure), PM-WANI, or cable/MSO registration — with eligibility, entry fee/bank guarantee expectations and next steps. Describe your business below.

Purpose of this tool & output

Find the right DoT licence for your business

How the output is used

Use it to identify which DoT licence or authorisation fits your business before you start a costly application.

Who should vet it

A telecom licensing consultant to confirm eligibility and the right licence before you start a costly application.

Important cautions

AI-generated guidance; confirm with DoT and a licensing consultant before applying.
