

Telecom Regulatory Audit

Telecom, ISP & Cable

Document type: Financial model / analysis · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a structured regulatory audit of your telecom/cable business against DoT and TRAI obligations — licensing, licence fee/AGR, KYC, security conditions, QoS and subscriber reporting, and RoW/EMF — with prioritised gaps and a remediation roadmap. Fill in your context below.

Purpose of this tool & output

A full sweep of your DoT/TRAI obligations

How the output is used

Use the audit to sweep your DoT/TRAI obligations, find compliance gaps and prioritise fixes before a regulatory inspection.

Who should vet it

A telecom regulatory consultant, especially before a regulatory inspection or a licence renewal.

Important cautions

AI-generated audit; validate with a telecom regulatory consultant.

Companion documents
