

Dyeing & Chemical Compliance

Textiles, Apparel & Fashion

Document type: Licence / statutory filing · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Manage effluent and chemical safety — effluent compliance (ETP, ZLD where mandated, discharge norms, SPCB consent), chemical management (MSDS, restricted chemicals, safe storage) and the records to keep. Fill in your details below.

Purpose of this tool & output

Manage effluent and chemical safety

How the output is used

Use the guide to manage dyeing effluent and chemical safety and to get the pollution-board consent your wet-processing unit needs.

Who receives it

The State Pollution Control Board (Consent to Establish / Consent to Operate).

How to submit / file it

Apply on the state PCB portal with the project, effluent/emission and treatment details; category (red/orange/green) decides scrutiny.

Fees & charges

A fee based on category and project cost; validity and renewal vary by state and category.

Who should vet it

An environmental consultant for category, norms and treatment design.

Important cautions

AI-generated guide; meet your SPCB consent and follow chemical safety rules.

Companion documents
