

Style Margin Analyzer

Textiles, Apparel & Fashion

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Find your most and least profitable styles — a per-style table of price, cost, margin percent and a push, reprice or drop verdict, plus mix actions. Paste your style data and the tool does the comparison. Fill in your details below.

Purpose of this tool & output

Find your most and least profitable styles

How the output is used

Use the analyzer to find your most and least profitable styles and to act on the mix.

Who should vet it

A costing/merchandising lead, to confirm the style-margin inputs.

Important cautions

AI-generated analysis; based on the data you provide.
