

Measurement Spec Sheet

Textiles, Apparel & Fashion

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a measurement spec (POM) sheet structure — the points of measure, base size, grading notes (increment per size) and tolerances per POM. Fill in your details below.

Purpose of this tool & output

Graded measurements with tolerances

How the output is used

Use the builder to create graded measurements with tolerances for consistent fit across sizes.

Important cautions

AI-generated structure; finalise from approved fit sample.
