

Body Building & Fabrication Spec

Transport & Fleet

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Writes a body-building/fabrication specification for a truck or bus body — dimensions, material, load design, features and finish — to give a fabricator so you get exactly what you need and it passes fitness. Use it before ordering a body. For the vehicle itself use the Vehicle Selection Advisor.

Purpose of this tool & output

Specify truck/bus body fabrication for a fabricator

How the output is used

Use it to specify truck or bus body fabrication for a fabricator — a body building and fabrication spec across dimensions, material and fitment.

Important cautions

Ensure the body matches RC/permit and legal dimension/weight limits; get fitness re-certified.
