

Bus Route & Timetable Planner

Transport & Fleet

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Designs bus routes and timetables — stops, timings, frequency, vehicle allocation and crew — balanced for demand, cost and permit conditions. Use it to plan a route service. For fares use the Passenger Fare Pricing Model.

Purpose of this tool & output

Design profitable routes and schedules

How the output is used

Use it to design profitable routes and schedules — a bus route and timetable planner that balances demand, cost and frequency.

Important cautions

Operate only within your permit route and conditions.
