

Emergency & Crisis Response Plan

Transport & Fleet

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds an emergency and crisis response plan for major incidents — serious accidents, hazmat spill, hijack/theft, breakdown of a passenger vehicle far from base, and media/family communication — so a crisis is managed, not chaotic. Use it for high-risk operations. For routine accidents use the Accident Response SOP.

Purpose of this tool & output

Be ready for major incidents and crises

How the output is used

Use it to be ready for major incidents and crises — an emergency and crisis response plan across roles, escalation and communication.

Important cautions

Adapt to your risks; for hazmat follow specific emergency and PESO rules and train drivers.
