

Fuel Theft Detection & Control Plan

Transport & Fleet

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a plan to detect and control fuel theft and pilferage — mileage benchmarking, fuel-card/coupon controls, sensor/telematics options, filling verification and driver accountability — so diesel does not leak away. Use it when mileage looks wrong. For overall fuel cost use the Fuel Management Plan.

Purpose of this tool & output

Stop diesel pilferage draining your margins

How the output is used

Use it to stop diesel pilferage draining your margins — a fuel theft detection and control plan across sensors, audits and process.

Important cautions

Base action on evidence, not suspicion; mileage varies with load and traffic.
