

Air Ticketing & GDS Setup

Travel & Tourism

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Guides setting up air ticketing for a travel business — GDS vs aggregator vs consolidator, IATA/BSP vs non-IATA, commissions and service fees, LCC handling, and workflow/controls — so you ticket efficiently and profitably. Use it to start or fix ticketing. For accreditation use the Accreditation & Membership Advisor.

Purpose of this tool & output

Set up air ticketing the right way

How the output is used

Use it to set up air ticketing the right way — an air ticketing and GDS setup guide across accreditation, GDS and process.

Important cautions

Airline commissions are limited; most ticketing margin now comes from service fees — set them transparently.
