

Group (GIT) Departure Planner

Travel & Tourism

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Plans a fixed group (GIT) departure — itinerary standardised for a coach group, min/max group size and break-even, tour-manager plan, and departure calendar — so group tours run full and profitable. Use it for series/group departures. For costing use the Tour Package Costing Sheet.

Purpose of this tool & output

Plan a fixed group departure that fills and profits

How the output is used

Use it to plan a fixed group departure that fills and profits — a group (GIT) departure planner across pricing, minimum numbers and logistics.

Important cautions

Block inventory against realistic demand; unsold group seats or unfilled departures erode margin fast.
