

Tour Package & Itinerary Builder

Travel & Tourism

Document type: Plan / SOP / strategy / guide · Generated 26 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a complete tour package — day-wise itinerary, inclusions/exclusions, hotels and transport, highlights and pace — from your destination and traveller inputs, so you have a ready-to-sell product. Use it to create a package. For the price use the Tour Package Costing Sheet.

Purpose of this tool & output

Design a complete tour package

How the output is used

Use it to design a complete tour package — a tour package and itinerary builder across stay, transport, activities and inclusions.

Important cautions

Confirm live hotel/transport availability and rates before selling; itinerary is a template.
