

Ticket Refund, Reissue & Cancellation Handling

Travel & Tourism

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds an SOP for handling ticket cancellations, reissues, refunds, no-shows and schedule changes — fare rules, airline vs your service charges, refund tracking and customer communication — so changes are handled correctly and you do not eat losses. Use it to manage post-booking changes. For fare strategy use the International Airfare & Routing Strategy tool.

Purpose of this tool & output

Handle changes and refunds without losing money

How the output is used

Use it to handle changes and refunds without losing money — a ticket refund, reissue and cancellation handling guide across rules and recovery.

Important cautions

Disclose service fees and refund timelines upfront; hidden charges on refunds are the top ticketing complaint.

Companion documents
