

AMC / Service Contract

Water, RO & Sanitation

Document type: Contract / agreement · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts an annual maintenance contract for water purifiers, dispensers or plants — scope, visits, response time, consumables, exclusions and charges. Use it to formalise service and recurring revenue.

Purpose of this tool & output

Draft a purifier or plant AMC

How the output is used

Use the draft for a purifier or plant AMC — scope, visits, spares, response-time and liability with discrete terms — reviewed by a lawyer.

Who receives it

The agreement is between the service provider and the customer; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act where applicable; the visit-frequency, spares-inclusion and response-time terms are the key content.

Who should vet it

A lawyer, to check the spares-inclusion, response-time and liability clauses before signing.

Important cautions

A draft template, not legal advice; the inclusions-versus-chargeables and response-SLA and exclusions clauses are the common dispute points. Have a lawyer review and adapt it before use.
