

Water Business Expansion Plan

Water, RO & Sanitation

Document type: Plan / SOP / strategy / guide · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a phased expansion plan for a water business — capacity, new territories, new lines (ATMs, AMC, treatment services), capital and management — grounded in what already works. Use it to grow without over-reaching.

Purpose of this tool & output

Plan expansion deliberately

How the output is used

Use it to plan expansion deliberately — a water business expansion plan with the capital, licences and capability each step needs.

Important cautions

Expansion strains source, capital and management and can dilute service and quality; source and regulatory limits bind water growth. Phase growth to capacity and cash and confirm source and clearances for new sites.
