

Water FSSAI Licence Guide

Water, RO & Sanitation

Document type: Licence / statutory filing · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains FSSAI licensing for packaged water and water-based products — the right tier, documents, hygiene requirements and the process, and how it links to BIS. Use it to get FSSAI compliant.

Purpose of this tool & output

FSSAI licence for packaged water

How the output is used

Use it to get the FSSAI licence for packaged water — the food licence a packaged drinking or mineral water maker must hold alongside ISI.

Who receives it

Food Safety and Standards Authority of India (FSSAI), via the FoSCoS portal.

How to submit / file it

Apply on FoSCoS for the right tier (Registration / State / Central) with KYC, layout and product details; inspection may follow.

Fees & charges

Government fee varies by tier and years; typically modest for registration, higher for State/Central licences.

Who should vet it

A food-safety consultant for the correct tier and Schedule-4 hygiene compliance.

Important cautions

FSSAI tiers depend on capacity and turnover and packaged water also needs BIS ISI certification; rules change. Confirm your tier and requirements with FSSAI and pair with BIS certification.
