

Legal Metrology & Packaging Guide

Water, RO & Sanitation

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains Legal Metrology and packaged-commodity rules for bottled and jarred water — net-quantity declaration, mandatory label content, registration and verification. Use it to package and label water lawfully.

Purpose of this tool & output

Comply with packaged-commodity rules

How the output is used

Use it to comply with packaged-commodity rules — a Legal Metrology and packaging guide across the mandatory declarations on water packs.

Important cautions

Legal Metrology declarations and net-quantity rules are strictly enforced and change; errors attract penalties. Confirm the current requirements with the Legal Metrology department and align with BIS and FSSAI labelling.
