

Water/Sanitation PPP Concession Agreement

Water, RO & Sanitation

Document type: Contract / agreement · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a PPP concession framework for a water-ATM, community-water or sanitation project with a public body — scope, roles, revenue, assets, performance and term. Use it as a starting structure for a municipal PPP.

Purpose of this tool & output

Draft a PPP concession for water or sanitation

How the output is used

Use the draft for a water or sanitation PPP concession — scope, obligations, tariff, term and risk allocation with discrete terms — reviewed by a lawyer.

Who receives it

The agreement is between the concessioning authority (municipal/government) and your firm; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act where applicable; the tariff, obligations and risk-allocation terms are the key content.

Who should vet it

A PPP/infrastructure lawyer, to check the obligations, tariff, risk-allocation and termination clauses before signing.

Important cautions

A draft framework, not legal advice; PPP concessions are complex, public-procurement-governed and must be tailored to the tender and local law. Have specialist legal counsel draft and review the concession before execution.

Companion documents

- Water Supply Agreement
- Distributor / Dealer Agreement
- AMC / Service Contract
- Plant O&M Contract
- Tanker Water Supply Agreement
- Institutional Supply / Rate Contract

processes vary by state and change over time — confirm with your state authority.
