

Rainwater Harvesting Services Guide

Water, RO & Sanitation

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a guide to a rainwater harvesting (RWH) and recharge services business — system design, sizing, mandates and incentives, and installation and maintenance. Use it to offer RWH solutions, increasingly mandatory in many areas.

Purpose of this tool & output

Offer rainwater harvesting solutions

How the output is used

Use it to offer rainwater harvesting solutions — a rainwater harvesting services guide across assessment, design and installation.

Important cautions

RWH mandates, incentives and building-approval linkages are state- and city-specific and change and correct design (recharge vs storage) matters. Confirm local mandates and design norms and size to actual rainfall and catchment.
