

RO Reject Water Management Plan

Water, RO & Sanitation

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a plan to reduce and reuse RO reject water — recovery improvement, reuse options and compliant disposal — cutting a major cost and compliance risk. Use it to manage reject water responsibly.

Purpose of this tool & output

Cut and reuse RO reject water

How the output is used

Use it to cut and reuse RO reject water — an RO reject water management plan that lowers waste, cost and compliance risk.

Important cautions

Reject reuse depends on its quality and your context and untreated disposal is regulated; improving recovery has limits. Test reject quality, prioritise reuse and confirm disposal compliance with the PCB.
