

Sanitation Services Business Setup

Water, RO & Sanitation

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a setup plan for a sanitation services business — community and public toilets, desludging, FSM or maintenance contracts — covering model, equipment, contracts and compliance. Use it to start in sanitation services.

Purpose of this tool & output

Start a sanitation services business

How the output is used

Use it to start a sanitation services business — a sanitation services setup guide across services, equipment, contracts and safety.

Important cautions

Manual scavenging and unsafe manual entry are illegal and dangerous; sanitation work must be mechanised with proper safety and worker dignity. Confirm the legal requirements and safety norms and secure contracts before investing.

Companion documents
