

Water Business Setup Guide

Water, RO & Sanitation

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a setup plan for a water business — model, water source, treatment, registrations and a launch checklist. Use it to start out. For a funding document use the Water Business Plan.

Purpose of this tool & output

Start a water or sanitation business

How the output is used

Use it as your first roadmap to start a water or sanitation business — the segment, plant, licences and capital you need before you open.

Important cautions

Packaged water needs mandatory BIS ISI certification and FSSAI and groundwater extraction needs a CGWA NOC; requirements vary by model and state. Confirm the registrations and water-source legality for your model before investing.

Companion documents

- Water Business Plan
- Water Business Model Selector
- Water Project Feasibility Study
- Water Market Assessment
- Plant / Site Selection Guide
- Water Business Entity & Structure Advisor

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
