

Sanitation Standards & Safety Compliance

Water, RO & Sanitation

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a compliance plan for sanitation operations — mechanised-cleaning and anti-manual-scavenging law, worker safety and PPE, safe disposal and mission standards. Use it to run sanitation services legally and safely.

Purpose of this tool & output

Meet sanitation and worker-safety rules

How the output is used

Use it to meet sanitation and worker-safety rules — a sanitation standards and safety compliance guide across standards, PPE and worker protection.

Important cautions

Manual scavenging and unsafe manual entry are illegal and have caused deaths; mechanisation and safety are legal and moral non-negotiables. Confirm the current law and safety norms and never deploy workers into hazardous manual entry.
