

Water Business Valuation Guide

Water, RO & Sanitation

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Estimates an indicative valuation range for a water business from earnings, assets and recurring-revenue base — adjusted for competition and source and compliance risk. Use it for a sale, partner buy-in or investment discussion.

Purpose of this tool & output

Estimate what the business is worth

How the output is used

Use it to estimate what the business is worth — a valuation on earnings, plant, brand, contracts and recurring AMC for a sale or investment.

Who should vet it

A CA, to firm up the valuation for any actual sale or investment.

Important cautions

An indicative range for discussion, not a formal valuation; source security, licences, competition and customer stickiness need verification. Commission a professional valuation and due diligence before any transaction.
