

Gems & Jewellery — 111 tools

All tools · at-a-glance descriptions · Generated 27 Aug 2026

This is the full list of AiSevak tools in this industry, each with a short description of what it produces. Open any tool on aisevak.in to run it.

Jewellery Business Setup & Retail Ops

Jewellery Business Setup Guide

Get a practical, phased plan to start a jewellery business in India — retail, manufacturing or trading — covering format, licences (BIS hallmarking, GST, PMLA/KYC), sourcing, security and go-live, with sequence, approximate costs and timelines. Describe your plan below.

Jewellery Showroom Setup Guide

Get a guide to setting up a jewellery showroom — layout and display zones, lighting and ambience, security (safe, CCTV, access), and customer flow — that maximises sales and protects stock. Describe the showroom below.

Jewellery Business Plan

Generate a structured business plan for a jewellery venture — market, offering, operations, sourcing, financials (with working-capital and gold-price risk) and funding ask — suitable for a bank or investor. Describe your venture below.

Jewellery Business Feasibility Study

Get a feasibility study for a new jewellery store, manufacturing unit or expansion — market and location, investment and stock, economics, break-even and risks (gold price, working capital) — to decide before committing. Describe the opportunity below.

Jewellery Retail Operations SOP

Produce a retail operations SOP for a jewellery showroom — opening/closing and stock handling, customer handling and billing, hallmark/certificate discipline, and security/cash — for consistent, secure operations. Describe the showroom below.

Jewellery Business Org Structure

Get an organisation and role structure for a jewellery business — sales floor, back-office (billing/accounts/stock), karigar/production coordination, and management — with responsibilities and controls, sized to your business. Describe it below.

Product & Service Portfolio

Design a product and service portfolio for a jewellery business — product categories and price tiers, plus services (custom orders, repair, exchange, schemes) — to present a clear, sellable range. Describe your offering below.

Online / D2C Jewellery Store Setup

Get a setup plan for an online/D2C jewellery store — catalogue and pricing (dynamic gold rate), photography, trust and certification, secure payments and shipping/insurance, and returns — to sell jewellery online. Describe the plan below.

Jewellery Manufacturing & Karigar

Jewellery Manufacturing Unit Setup

Get a guide to setting up a jewellery manufacturing unit — process and equipment (casting, CAD/CAM, setting, polishing), karigar team, metal control and security, and licences — to make jewellery in-house. Describe the plan below.

Karigar / Artisan Management System

Get a system to manage karigars/artisans — metal issue and receipt, wastage/loss norms and reconciliation, job tracking, quality and payment — to control India's core jewellery-making risk: metal loss. Describe your setup below.

Jewellery Production SOP

Produce a production SOP for jewellery manufacturing — order-to-design, casting/making, stone setting, finishing, QC and hallmarking — with metal and quality controls at each stage. Describe your production below.

Metal Wastage Control Plan

Get a plan to control and recover precious-metal wastage across making — process-wise loss norms, scrap/dust/polishing-waste recovery, and reconciliation — to reduce the biggest hidden cost in jewellery manufacturing. Describe your operation below.

CAD / Casting Process Guide

Get a guide to the CAD and casting process for jewellery — design-to-CAD, mould/model, investment casting parameters, and common defects and fixes — to produce clean castings. Describe your setup below.

Jewellery Quality Control SOP

Produce a quality-control SOP for jewellery — purity/caratage verification, stone setting and security, finish and weight, and hallmark readiness — so pieces meet standard before sale. Describe your products below.

Job-work / Outsourcing Management

Get a system to manage outsourced job-work — issuing metal to outside karigars/units, tracking, GST job-work compliance, wastage terms, and receipt/reconciliation — to outsource making safely. Describe your setup below.

Repair & Service SOP

Produce an SOP for jewellery repair and service — receiving customer pieces (weight/condition record), estimate, repair, and return — with controls to protect customer trust and avoid disputes. Describe your service below.

Metal Stock Reconciliation SOP

Produce a metal stock reconciliation SOP — reconciling opening + receipts vs issues + closing + wastage across the business (stock, karigars, job-work), with variance investigation — so no metal goes unaccounted. Describe your operation below.

Design & Product Development

Jewellery Design Brief

Create a jewellery design brief — the piece, occasion and wearer, metal/stones and weight/budget, style references and must-haves — so a designer or CAD artist delivers the right design. Describe the requirement below.

Jewellery Collection Planning

Get a collection plan for a jewellery range — theme and story, product mix and price-points, weight/margin balance, and launch — so a new collection is coherent, saleable and profitable. Describe the collection below.

CAD Design Optimisation Guide

Get guidance to optimise a jewellery CAD design — for target weight and metal cost, manufacturability (casting/setting), durability, and comfort — so the design is both beautiful and viable to make and sell. Describe the design below.

Custom Order Process SOP

Produce an SOP for custom/bespoke jewellery orders — requirement capture, quote and advance, design approval (CAD/wax), making and updates, and delivery — so custom orders delight customers without disputes. Describe your process below.

Jewellery Trend & Design Direction

Get a trend and design-direction brief for jewellery — styles, motifs, metals/finishes and price behaviours likely to resonate for your segment and season — to guide design and buying. Describe your context below.

Jewellery Catalogue Creation

Get a plan and structure to create a jewellery catalogue — organisation, product info (weight, stones, price basis), photography and presentation — for print, digital or wholesale. Describe the catalogue below.

Bridal Collection Plan

Get a bridal collection and merchandising plan — the sets and pieces, regional/community styles, price tiers, and how to present and sell to wedding buyers — to capture high-value bridal sales. Describe your market below.

New Product Development Plan

Get a new-product-development plan for a jewellery line — concept, design and sampling, costing and pricing, production and launch — with gates, to bring a new range to market profitably. Describe the idea below.

Gemstones & Diamonds

Gemstone Trading Guide

Get a guide to trading gemstones — sourcing and evaluation, quality/value factors, certification, pricing and margins, and risks (treatment, synthetics, disputes) — to buy and sell stones profitably and safely. Describe your focus below.

Diamond Grading (4Cs) Guide

Get a guide to diamond grading and the 4Cs (cut, colour, clarity, carat) — how each affects value and appearance, grading scales and certification, and how to buy/sell and price by grade — for confident diamond dealing. Describe your context below.

Gem & Jewellery Certification Guide

Get a guide to certification for gems and jewellery — which certificates matter (diamond/gemstone/jewellery), reputed labs, what reports cover, and how to use certification to build trust and value. Describe your products below.

Diamond / Gem Sourcing Guide

Get a guide to sourcing diamonds, gemstones and metal — channels and suppliers, quality and price verification, terms (memo/consignment), and safeguards — to source reliably at fair prices. Describe your need below.

Kimberley Process / Ethical Sourcing Guide

Get a guide to the Kimberley Process and ethical sourcing for diamonds/gems — conflict-free certification, warranties, documentation, and responsible-sourcing expectations — for compliant, ethical trade (especially for export). Describe your context below.

Jewellery / Gem Valuation

Get a structured valuation of a jewellery piece or gemstone — metal value, stone value, making, and a fair market/insurance value with the basis — for sale, insurance, buyback or loan. Describe the item below.

Coloured Stone Handling Guide

Get a guide to a specific coloured gemstone — its value factors, treatments and disclosure, care and setting considerations, and pricing/selling tips — to deal in it knowledgeably. Describe the stone below.

Lab-Grown Diamond Business Guide

Get a guide to dealing in lab-grown diamonds — how they differ from natural, sourcing and grading, pricing and positioning, disclosure/ethics, and the business opportunity and risks — to enter the category credibly. Describe your context below.

Gold & Precious Metals

Gold Purchasing & Sourcing Guide

Get a guide to purchasing gold for a jewellery business — sources (banks/nominated agencies, bullion dealers, gold-metal loan, old gold), purity verification, rate and premium, and documentation — to source gold correctly. Describe your need below.

Gold Rate & Price Management

Get a system to manage gold rates and price exposure in a jewellery business — daily rate setting for sales, purchase timing, unhedged-inventory risk, and rate communication — so gold-price swings do not erode margin. Describe your situation below.

Gold Savings Scheme Guide

Get a guide to designing and running a customer gold savings/installment scheme — structure and benefits, the legal/deposit-rules caution, accounting, and customer terms — to drive footfall while staying compliant. Describe the scheme below.

Purity & Refining Guide

Get a guide to gold purity, caratage and refining — karat vs fineness, alloying for different karats, testing methods, and refining old gold/scrap to fine gold — for accurate purity handling. Describe your need below.

Gold Loan Business Setup Guide

Get a guide to setting up a gold-loan business — model (NBFC vs other), RBI norms (LTV, valuation, auction), appraisal and security, and operations — to lend against gold compliantly. Describe your plan below.

Bullion Trading Guide

Get a guide to bullion trading — sourcing and purity, rate mechanics and spreads, hedging and inventory risk, compliance and documentation — to trade gold/silver bullion. Describe your context below.

Old Gold Exchange SOP

Produce an SOP for old-gold exchange/buyback — purity testing, weight and deduction transparency, valuation, and documentation — so exchange is fair to the customer and safe for the business. Describe your policy below.

Silver / Platinum Business Guide

Get a guide to dealing in silver or platinum jewellery/articles — purity and hallmarking, sourcing and making, pricing and margins, and market positioning — to add these lines. Describe your interest below.

Hallmarking & Quality Compliance

BIS Hallmarking Guide

Get a guide to BIS mandatory hallmarking for gold jewellery — registration, the hallmark components and HUID, AHC/hallmarking centres, caratage rules, and compliance obligations — so your jewellery is legally sellable. Describe your business below.

HUID System Guide

Get a guide to the HUID (Hallmark Unique ID) system — what HUID is, how it is assigned and tracked, its impact on stock, tagging and returns/exchange, and practical management — so you handle HUID-hallmarked stock correctly. Describe your context below.

Caratage & Fineness Reference Guide

Get a reference guide to gold caratage and fineness for hallmarking and sales — permitted karats, fineness numbers, what can be hallmarked, and how to mark and communicate purity correctly. Describe your context below.

BIS Hallmark Registration Kit

Get a documentation and step kit to register with BIS for hallmarking (as a jeweller/retailer or manufacturer) — the documents, process, fees and obligations after registration — so you can sell hallmarked jewellery. Describe the applicant below.

Purity Testing SOP

Produce a purity-testing SOP for a jewellery business — methods (touchstone, XRF, fire assay), when to use each, testing incoming metal/old gold and outgoing pieces, and records — so purity is verified reliably. Describe your setup below.

Purity / Quality Dispute Handling

Get a guide to handling a purity or quality dispute — from a customer or in a transaction — covering verification (independent assay), consumer-rights context, resolution options, and prevention. Describe the dispute below.

Hallmarking Compliance Checklist

Get a hallmarking compliance checklist for a jewellery showroom — registration, hallmarked-only stock, HUID and records, display and billing requirements, and old-stock handling — to stay compliant and audit-ready. Describe the showroom below.

Retail Sales & Customer Experience

Jewellery Sales SOP

Produce a sales SOP for a jewellery showroom — greeting and needs discovery, product presentation and value-explanation (purity/making/certification), objection handling, and closing — to convert more high-value visits. Describe your context below.

Customer Experience Plan

Get a customer experience plan for a jewellery showroom — the buying journey from welcome to after-sale, trust and comfort touchpoints, and delight moments — so buyers feel confident and return. Describe the showroom below.

Bridal / Wedding Sales Guide

Get a guide to selling to wedding/bridal buyers — the family buying dynamic, consultation and trousseau approach, budget and set-building, and closing the high-value sale — to capture wedding purchases. Describe your market below.

Exchange & Buyback Policy

Draft an exchange and buyback policy for a jewellery business — old-gold exchange terms, buyback rates and deductions, stone and making treatment, and conditions — to build trust and drive repeat sales while protecting margin. Describe your policy below.

Clienteling & HNI Relationship Plan

Get a clienteling plan for high-value and repeat jewellery customers — customer database and preferences, personalised outreach around occasions, private previews, and relationship building — to grow lifetime value. Describe your customers below.

Jewellery Loyalty Program

Design a loyalty program for a jewellery business — structure (points, making-charge benefits, tiers), rewards that suit jewellery buying, and economics — to drive repeat purchase and referrals. Describe your business below.

Customer Complaint Handling SOP

Produce a complaint-handling SOP for a jewellery business — common complaints (purity, quality, service, delivery), resolution timelines, escalation, and prevention — to resolve issues fairly and protect reputation. Describe your context below.

Certificate & Warranty Kit

Generate the customer document set for a jewellery sale — a proper invoice (purity, HUID, weights, charges), a jewellery/diamond certificate, a lifetime-exchange/warranty card, and care instructions — to build trust and support exchange. Describe your products below.

Inventory & Stock Management

Jewellery Inventory SOP

Produce an inventory management SOP for a jewellery business — tagging and stock records (weight/purity/stones), receipt and issue, custody controls, and reconciliation — to control high-value stock and prevent loss. Describe your operation below.

Physical Stock Verification SOP

Produce a physical stock verification SOP for a jewellery showroom — count planning and controls, weight and piece verification against records, variance handling, and frequency — so periodic verification is accurate and tamper-proof. Describe your setup below.

Tagging & Barcoding System

Get a plan to set up a tagging and barcoding system for jewellery stock — tag data (weight/purity/HUID/price basis), tag types, integration with billing/ERP, and re-tagging on rate change — to speed billing and tighten control. Describe your setup below.

Memo / Consignment Stock SOP

Produce an SOP for memo/consignment (goods on approval) stock — issuing and receiving jewellery on memo to/from dealers or customers, tracking, and reconciliation — to control this high-risk practice common in the trade. Describe your situation below.

Stock Security & Insurance Plan

Get a security and insurance plan for jewellery stock — safe/strong-room, CCTV and access, cash and stock movement, staff controls, and insurance (jewellers block) — to protect high-value stock from theft and loss. Describe the business below.

Dead / Slow-Moving Stock Plan

Get a plan to tackle dead and slow-moving jewellery stock — identifying it, options (remake/melt, redesign, promote, exchange with suppliers), and preventing recurrence — to free up trapped capital and metal. Describe the situation below.

Stock Valuation

Get a structured stock valuation for a jewellery business — metal value at current rate, stone value, and making/cost basis — to value inventory for accounts, working-capital/gold-loan, insurance or audit. Enter the stock details below.

Compliance & Regulatory

PMLA / KYC Compliance Guide

Get a guide to PMLA and KYC obligations for jewellers (as reporting entities for high-value transactions) — thresholds, customer due diligence, record-keeping and reporting — so high-value sales are compliant. Describe your business below.

Jeweller GST Guide

Get a practical GST guide for a jewellery business — rates on gold and making charges, old-gold exchange treatment, job-work, e-invoicing, and input credit — so billing and returns are compliant. Describe your business below.

Gold Transaction & Cash Rules Guide

Get a guide to the cash-transaction and gold-related rules affecting jewellers and customers — income-tax cash limits, PAN thresholds, gold-holding norms, and documentation — so transactions are safe and compliant. Describe the context below.

Jewellery Business Licence Guide

Get a consolidated licence and registration checklist for a jewellery business — GST, BIS hallmarking, shops/trade, PMLA registration, IEC (for import/export), and others — with purpose and authority for each. Describe your business below.

E-Way Bill for Jewellery Guide

Get a guide to e-way bill and transport documentation for moving jewellery, gold and stones — when e-way bill applies (special jewellery position), documentation, and secure transit — so movement is compliant and safe. Describe the movement below.

Jeweller Income Tax & Accounts Guide

Get a guide to income-tax and accounting good practice for a jewellery business — stock valuation, cash discipline, high-value-transaction reporting, and audit-readiness — to keep clean books in a cash- and gold-heavy trade. Describe your business below.

Consumer Protection Compliance Guide

Get a guide to consumer-protection obligations for jewellers — accurate representation (purity, weight, stones), hallmarking consumer rights, transparent pricing and exchange, and complaint redressal — to avoid consumer disputes and penalties. Describe your business below.

High-Value Sale Handling Guide

Get a guide to handling a high-value jewellery sale correctly — payment modes and limits, KYC/PAN, invoicing and reporting, and documentation — so a big-ticket transaction is compliant and safe. Describe the transaction context below.

Exports & Trade

Gems & Jewellery Export Plan

Get an export plan for gems and jewellery — target markets, GJEPC and IEC prerequisites, product and certification, logistics and payment, and incentives — to start or grow exports. Describe your business below.

GJEPC Membership & Benefits Guide

Get a guide to GJEPC (Gem & Jewellery Export Promotion Council) — membership and RCMC, benefits (schemes, trade shows, KP, facilitation), and how to leverage it — for an exporter. Describe your business below.

Gems Export Documentation Guide

Get a guide to the documentation for a gems/jewellery export shipment — commercial, customs, certification (hallmark/diamond/KP), secure logistics and payment documents — so consignments clear and are safe. Describe the shipment below.

SEZ / EOU for Gems Guide

Get a guide to operating in a Gems & Jewellery SEZ or as an Export-Oriented Unit — benefits, obligations (NFE, duty-free import of gold/rough), compliance, and whether it suits your export business. Describe your situation below.

Gold / Rough Import Guide

Get a guide to importing gold, rough diamonds or gemstones into India — the channels (nominated agencies/banks, direct for exporters), duties and schemes, KP for rough, and documentation — so imports are compliant. Describe your need below.

Jewellery Export Marketing Plan

Get an export-marketing plan for a gems/jewellery business — target markets and buyer types, trade shows (IIJS/international), digital B2B, and outreach — to find and win international buyers. Describe your business below.

Jewellery Export Costing

Build an export cost sheet for a jewellery order — metal, stones, making, certification, secure logistics and insurance, and margin — to arrive at FOB/CIF export prices. Enter the order and cost inputs below.

International Buyer Handling Guide

Get a guide to onboarding and serving international jewellery buyers — vetting and terms, sample/memo handling across borders, quality and certification expectations, payment security, and relationship building — to convert and retain export buyers. Describe your situation below.

Marketing & Growth

Jewellery Marketing Plan

Get a marketing plan for a jewellery business — positioning and trust, channel mix (festive, digital, referrals, weddings), offers and a calendar aligned to buying seasons — to drive footfall and sales. Describe your business below.

Jewellery Social Media Plan

Get a social media plan for a jewellery business — platform mix, content pillars (collections, behind-the-scenes, education, bridal, offers), a content calendar, and lead handling — to build desire and drive enquiries. Describe your business below.

Festive / Wedding Campaign Plan

Get a campaign plan for a peak jewellery-buying occasion (Akshaya Tritiya, Dhanteras, Diwali, wedding season) — theme and offers, collection focus, channels, and in-store activation — to maximise seasonal sales. Describe the occasion below.

Jewellery Influencer Plan

Get an influencer marketing plan for a jewellery business — creator selection (bridal, fashion, local), collaboration types, deliverables and disclosure, and measurement — to build desire and reach. Describe your business below.

Digital Presence Plan

Get a plan to build a jewellery business's digital presence — website/catalogue, Google Business Profile and local SEO, WhatsApp catalogue, and reviews — so buyers searching locally find and trust you. Describe your business below.

Customer Outreach Message Kit

Generate outreach and re-engagement messages for jewellery customers — festive/occasion invites, new-collection announcements, scheme reminders and win-back — for WhatsApp/SMS/email, ready to personalise. Describe the context below.

Jewellery Lead Generation Plan

Get a lead-generation plan for a jewellery business — target buyers and occasions, channels (digital ads, weddings, referrals, schemes), lead capture and follow-up — to build a steady enquiry pipeline. Describe your business below.

Jewellery Brand Story & Positioning

Craft a brand story and positioning for a jewellery business — heritage or purpose, values (trust, craftsmanship, transparency), and messaging — to differentiate in a trust-driven market. Describe your business below.

Finance & Unit Economics

Making Charge & Price Build-up

Build up the price of a jewellery piece — metal value, stone value, making charge (per-gram or percentage), wastage, GST — to a transparent final price, so you price consistently and profitably. Enter the piece and inputs below.

Jewellery Product Costing

Build a manufacturing cost sheet for a jewellery piece — metal (with wastage), stones, labour/making, and overhead — to the true cost, so you set making charges and margins correctly. Enter the piece and cost inputs below.

Jewellery Business P&L

Build a profit-and-loss view for a jewellery business — revenue (metal vs making), cost of goods, operating costs and profit, with margins and the making-charge/metal split — to understand and improve profitability. Enter your figures below.

Jewellery Working Capital Plan

Get a working-capital plan for a jewellery business — the heavy stock/inventory funding need, gold-metal-loan vs cash, receivables (if any), and levers to improve inventory turns — since stock is the core cash issue. Describe your situation below.

Gold Price Hedging Guide

Get a guide to hedging gold-price risk on jewellery inventory — the exposure, hedging tools (gold-metal loan, gold lease, futures/options), how they work and their risks, and a simple policy — so price falls do not wipe out margin. Describe your exposure below.

Product Margin & Mix Analysis

Analyse margin and mix across your jewellery categories — where the real margin is (making/design vs metal), which categories and turns drive profit, and mix/pricing levers — so you focus the assortment on profit. Describe your business below.

Jewellery Business Capex Plan

Build a capex plan for a jewellery investment — a new showroom, workshop equipment, security systems or ERP, funding and the return case — to plan and justify the spend. Describe the investment below.

Jewellery Business Valuation Guide

Get an indicative valuation view for a jewellery business — the methods (asset/stock-heavy, earnings), value drivers (brand, location, turns, customer base) and discounts, and a reasoned range — for a sale, partner exit or investment. Describe the business below.

Jewellery Pricing Strategy

Get a pricing strategy for a jewellery business — transparent metal + making pricing, making-charge strategy by category, competing on trust/value vs discounters, and margin protection — to price competitively yet profitably. Describe your situation below.

Contracts & Commercial

Karigar / Artisan Agreement

Draft an agreement with a karigar/artisan — work scope, metal issue and wastage norms, weight accountability and reconciliation, making charges, and quality — to protect against metal loss and disputes. Fill in the terms below.

Jewellery Job-Work Agreement

Draft a job-work agreement to outsource jewellery making to an outside unit/karigar — metal issue and challan, GST job-work compliance, wastage, quality and reconciliation — for compliant, controlled outsourcing. Fill in the terms below.

Jewellery Consignment / Memo Agreement

Draft a consignment/memo (goods-on-approval) agreement — placing jewellery with a dealer/store or taking it from a supplier — covering custody, risk, settlement, return and GST. Fill in the terms below.

Jewellery Supply Agreement

Draft a supply agreement to supply jewellery to a dealer, chain or retailer — products and pricing (metal + making), quality/hallmark, returns/exchange, and payment — for a wholesale supply relationship. Fill in the terms below.

Jewellery Franchise Agreement

Draft a jewellery franchise agreement between a brand and a franchisee — territory and brand use, stock model (owned/consignment), fees/margin, standards, and compliance — to expand the brand. Fill in the terms below.

Jewellery Business NDA

Draft a mutual NDA for a jewellery-business context — protecting designs and CAD files, sourcing/pricing, customer lists and karigar know-how shared with partners, vendors or during a deal. Fill in the parties and scope below.

Gold Loan / Pledge Agreement

Draft a gold loan/pledge agreement between a lender and a borrower — loan amount and LTV, the pledged gold (weight/purity/valuation), interest, tenure, and default/auction terms — for lending against gold. Fill in the terms below.

Vendor / Supplier Agreement

Draft a vendor agreement for a jewellery-input supplier (diamonds, gemstones, findings, bullion) — quality/certification, pricing, delivery, returns and disclosure (treatment/synthetics) — to source inputs reliably. Fill in the terms below.

HR & Workforce

Sales Staff Hiring Kit

Get a hiring kit for a jewellery sales role — job description, must-have traits (product knowledge, trust, soft skills), a role-play assessment and interview questions, and integrity checks — to hire capable, trustworthy sales staff. Describe the role below.

Karigar / Workshop HR Policy

Generate an HR and workshop policy for karigars/artisans — engagement and payment (piece/weight-based), attendance, metal-handling and security rules, quality, and conduct — to run the workshop fairly and securely. Describe your setup below.

Jewellery Business HR Policy Handbook

Generate an HR policy handbook for a jewellery business — employment, attendance, leave, conduct, high-value-stock security and integrity rules, POSH and grievance — practical for a showroom + workshop team. Describe the business below.

Staff Training Plan

Get a training plan for jewellery staff — product and purity/hallmark knowledge, gemstone/diamond basics, consultative selling, customer trust and compliance (KYC/hallmarking) — to build a knowledgeable, trusted team. Describe your team below.

Sales Incentive Scheme

Design a sales-incentive scheme for jewellery staff — rewarding value and margin (not just gold weight), with quality/ethics gates so incentives do not drive mis-selling — with clear rules and examples. Describe your goal below.

Theft & Shrinkage Prevention Policy

Get a theft and shrinkage prevention policy for a jewellery business — internal controls (custody, dual-handling, checks), external security, high-risk points (workshop, memo, transit), and investigation — to minimise loss lawfully. Describe your business below.

Jewellery Business Workforce Plan

Build a workforce plan for a jewellery business — sales floor, back-office (billing/accounts/stock), workshop/karigars, and security — with roles, competencies, controls and hire priorities, sized to your business. Describe it below.

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
